Past performance does not guarantee future results. Returns for periods greater than one year are annualized. Returns are expressed in U.S. dollars and reflect the reinvestment of dividends and other earnings. Composite and benchmark returns are presented net of non-reclaimable withholding taxes, if any. Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns reflect gross performance less investment management fees. Net-of-fees returns are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee). The composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is

required to ensure the model composite net-of-fee return is lower than or equal to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. The firm's fees are available on request and may be found on Part 2A of its Form ADV.

REGION ALLOCATION (%)

The Sophus Emerging Markets Composite includes all discretionary accounts invested in the Emerging Markets Strategy. The Strategy employs an integrated investment approach whereby powerful proprietary quantitative screens are melded with deep fundamental analysis to capture the growth of emerging markets companies across the market cap spectrum. The composite creation date is May 2013 and the composite inception date is April 2013.

The benchmark of the composite is the MSCI Emerging Markets Index (Net). The MSCI Emerging Markets Index (Net) is a free float-adjusted market capitalization index that is designed to measure the equity performance of emerging markets.

All investments carry a certain degree of risk including the possible loss of principal, and an investment should be made with an understanding of the risks involved with owning a particular security or asset class. Interested parties are strongly encouraged to seek advice from qualified tax and financial experts regarding the best options for your particular circumstances.

Index returns are provided to represent the investment environment during the periods shown. Index performance does not reflect management fees, transaction costs or expenses that would be incurred with an investment. One cannot invest directly in an index. **Past performance does not guarantee future results.**
