1. Victory Capital Management Inc. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Victory Capital Management Inc. has been independently verified for the period from January 1, 2001, through December 31, 2024. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.
2. Victory Capital Management Inc. (VCM) is a diversified global investment adviser registered under the Investment Advisers Act of 1940 and comprises multiple investment franchises: Integrity Asset Management, Munder Capital Management, New Energy Capital Partners, NewBridge Asset Management, Pioneer Investments, RS Investments, Sophus Capital, Sycamore Capital, THB Asset Management, Trivalent Investments, Victory Income Investors, and the Victory Capital Solutions Platform. RS Investments and Sophus Capital became a part of the VCM GIPS firm effective January 1, 2017; Victory Income Investors, effective July 1, 2019; THB Asset Management, effective March 1, 2021; New Energy Capital effective November 1, 2021; and Amundi Asset Management US, Inc. (renamed to "Pioneer Investments"), effective April 1, 2025.
3. The Trivalent International Small-Mid Equity Composite includes all portfolios of \$100,000 or more that are managed according to the Trivalent International Small-Mid Equity strategy. The strategy aims to invest in high quality foreign small-mid companies with improving business momentum that are trading at attractive relative valuations.. The composite creation date is June 2024, and the inception date is 8/1/2024.
4. The benchmark is the MSCI ACWI ex USA SMID Index (Net). The MSCI ACWI ex-USA SMID Value Index measures the performance of the value mid and small cap segments of the adjusted, excluding U.S. equity securities, including developed and emerging markets. It is free-float adjusted; market-capitalization weighted. For comparison purposes, the index is fully invested, which includes the reinvestment of income. The returns have been taken from a published source and do not include any transaction fees, management fees, or other costs.
5. The internal dispersion of annual returns is measured by the standard deviation of asset-weighted gross returns of accounts included in the composite for the full year. If less than six portfolios are included in the composite for the full year, no dispersion measure is presented, as it is not considered meaningful (N/M). The three-year annualized ex-post standard deviation measures the variability of the composite's gross returns, and the benchmark returns over the preceding 36-month period. It is not required to be presented for annual when a full three years of composite performance is not yet available.
6. Composite and benchmark returns are presented net of non-reclaimable withholding taxes. Gross-of-fees returns are presented before management and custodial fees but after all transaction costs. Net-of-fees returns are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee). The composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is required to ensure the model composite net-of-fee return is lower than or equal to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size. Prior to November 2014, net returns for this composite were calculated using actual management fees. The complete fee schedule for this product is:

Market Value

First \$50,000,000
Next \$50,000,000
Above \$100,000,000
